

## **KCIA AIRPORT ADVISORY**

**DATE:** April 23, 2003

**TO:** King County International Airport Tenants  
distributed by e-mail and fax

**FROM:** Jamie Runyan, Acting Airport Operations & Compliance Officer

**SUBJECT:** **Main Runway 13R/31L Partial Closure - Saturday April 26, 2003**

Over the past few weeks, the airport has been conducting a series of profiling assessments of Runway 13R/31L (main runway). The results show a section of the runway between the B3 and B4 intersections has had significant settling since the post-earthquake repairs.

The needed repairs are scheduled for **April 26, 2003 - SATURDAY from 0800 - 2000 local time (weather permitting)**. The repair work will consist of grinding, paving and painting. It will require **closing the first 4800 feet of RWY 13R**. Therefore, if 13R is active, there will be 5200 feet for arrival and departure. If 31L is active, there will be 5200 feet for departure and 4400 feet for arrival. Additionally, the **B3 and A4 taxiway intersections will be closed**.

After repairs are completed and the main runway is fully operational, a NOTAM will be issued describing the repaired area as being **NOT GROOVED** until May 17. If there is any delay in the 13R/31L repair schedule, **RWY 13L/31R will remain open past 22:00** until the main runway is fully operational. Taxiway Bravo will remain open with no restrictions. A1, A2, B2, B4, A7 taxiway intersections also will remain open.

Any changes to this schedule including postponement will be communicated to tenants in a subsequent advisory notice.

We apologize for any inconvenience this partial closure might cause this weekend, but we are sure you will be pleased with the improved runway surface. Should you have any questions, please contact me directly at (206) 296-7332.
